

GAC in Argentina Shipping Services

Your local partner at ports across the country

As part of GAC's global network and our established coverage of the East Coast of South America, we provide comprehensive shipping services to support your business in Argentina.

Whether you're managing day-to-day vessel calls or large-scale offshore operations, our focus is on delivering safe, efficient and transparent service you can depend on.

Delivering your strategy.

One global standard, delivered locally

In Argentina, GAC offers reliable support to keep your business moving. With our local knowledge, responsive teams and the combined strength of our regional and global offices, we deliver the services you depend on.

Our complete range of ship agency services includes cargo handling and husbandry, bunkers-only calls, protective agency and marine support for oil & gas and offshore operations.

Whether you're managing tankers, bulk carriers, survey vessels or offshore projects, with GAC you work with experienced professionals who understand the local

landscape and know what matters to you. That means clear communication, dependable service and no surprises.

Doing it right

GAC operates in full alignment with international compliance standards. Defined procedures and strong internal controls are in place to ensure consistency, transparency and accountability.

Health and safety

Our proactive safety culture puts people first and helps reduce downtime, manage risks and maintain safe, reliable operations from start to finish.

Experience
you can trust,
service you
can rely on.
