

GAC India Dry Bulk Services

Delivering seamless and efficient port calls

GAC has more than 60 years of proven track record in serving large dry bulk players around the world. Today, we provide an unparalleled expertise and experience in delivering professional ship agency services for a wide range of dry bulk markets.

Whatever your cargo type – from grains, coal, ores, sugar or fertilisers to cement, steel, minerals and scrap metals – you can tap on our global network and local know-how to achieve smooth and rapid vessel turnaround at both load and discharge ports.

Delivering your strategy.

Taking care of your dry bulk needs, 24/7

Whatever your cargo type, GAC India has the local know-how and experience to deliver a smooth and prompt turnaround of vessels. All our operations are carried out in full compliance with local regulations.

By using our custom-built port operations and shipping software GACagent, we can accommodate the changing needs of vessels in port and provide you with constant and reliable status reports.

The GAC advantage

- Global coverage capable of handling vessels at both origin and destination ports
- Over half a century of experience in serving global dry bulk markets
- 24/7 operations backed by in-depth local

- expertise for fast and efficient turnaround
- Short lead-times for final disbursement
- Modern, effective IT solutions and security systems
- Strict Health, Safety, Security and the Environment (HSSE) compliance
- Excellent relations with both public and private sectors of the shipping industry
- Reliable market and port intelligence

As your strategic partner, we strive to help you optimise time and cost efficiencies. Our Disbursement Account (D/A) management services, offered on a global or regional scale based on our extensive hub agency expertise, help reduce your administrative burden, thus allowing you to concentrate on your vessel and its operation.

To further aid efficient dry bulk operations planning, GAC's free daily intelligence service Hot Port News is a trusted source of the latest news on port conditions worldwide.
