

GAC Malaysia Energy Support Services in Labuan

Our supply base in Labuan, coupled with our comprehensive range of services cater to all your energy needs.

Labuan Federal Territory is Malaysia's only deep-water anchorage just six miles off the northwest coast of Borneo, East Malaysia. The island forms a natural safe harbour and is not affected by monsoons. The island is a strategic Oil and Gas hub offering extremely competitive lay up / anchorage rates in a geographically crucial location and is supported by a well-established O&G supplier network. Labuan is a duty free port. All goods imported into Labuan are exempted from duties and taxes. Petroleum exploration, production and servicing companies are exempted from import duties and sales tax for materials and equipment used directly for upstream petroleum operations.

Delivering your strategy.

360° Energy support in Labuan

Strategic Location

The GAC Supply Base is located 2km from the port (Asian Supply Base). Comprising 1800m² of covered warehouse space and 7,000m² of open yard space, the supply base adequately meet your storage requirements.

Direct ferry routes from Labuan to Brunei and Sabah mainland take approximately one hour. GAC provides trucking in and out of Labuan via ferry to all major towns such as Brunei, Kota Kinabalu, Miri, Bintulu and Kuching.
