

# GAC Pakistan Shipping & Logistics Services

**Integrated services that you can count on**

Established in 1984, GAC Pakistan is one of the country's top ship agencies. We provide a comprehensive range of shipping services for diverse industries and handle all vessels calling at Karachi, Port Qasim, Gwadar and Gadani. We were the first shipping company in Pakistan to receive the Quality Management System (QMS) Certificate from Det Norske Veritas (DNV) in April 1999. The QMS is recognised and certified by Bureau Veritas under the ISO9001-2015 benchmark.

From our main office in Karachi, our team of experienced shipping professionals coordinates activities to provide complete agency coverage across all the country's terminals and ports.

Today, our portfolio has expanded to include logistics and energy support services.

**Delivering your strategy.**

## GAC Pakistan has the skills, local knowledge and network to help drive your business.

### Diverse portfolio

Whether you are controlling an entire fleet or a single vessel, rely on GAC Pakistan to serve your needs. Our portfolio of integrated shipping services caters to tankers, dry bulk, heavy lift, general cargo, Ro-Ro, container, navy, cruise, drill rigs and more. We also provide professional support for the loading and discharge of wet and dry bulk and general cargo and containers, crew changes, as well as the supply of bunker fuels and ship spares.

### Seamless operation

Our excellent relations with local agencies and industry contacts ensure prompt turnaround of vessels, favourable rates and priority access even during peak periods. Our specialists take care of all the administrative and financial matters for a smooth and efficient operation. We keep you informed of your vessel or cargo status throughout every port call. You will also

receive a customised commodity report for every job done.

### Bespoke logistics services

Tap into our multi-modal transportation solutions including freight forwarding and land transportation. We also have the skills and strength to manage and oversee the delivery of your project cargo shipments
