

GAC Sri Lanka Ship-to-Ship Transfers

Experience and expertise at your service

Transferring oil, gas or dry bulk cargo from ship to ship is a highly technical and challenging operation that requires specialist skills and equipment, rapid mobilisation capability and the experience to respond quickly to changing conditions.

You demand the highest standards of safety and professionalism - and so do we. That's why every STS operation we conduct is performed safely and seamlessly, with well maintained equipment and professional Mooring Masters.

Delivering your strategy.

STS transfer services to keep your vessel moving

GAC is the pioneer and market leader of ship-to-ship (STS) transfer services in Sri Lanka.

Your STS specialist

GAC Sri Lanka has a track record in handling operations for vessels of all sizes. Our experienced and hands-on team is at your service, 24/7. Operations can be carried out at either Galle or Trincomalee, depending on the monsoon.

We also provide all necessary equipment such as hoses, fenders and support craft, as well as full back-up services including standby boats, equipment transportation and 24-hour communication coverage with vessels.

Safety first

All operations are conducted in accordance with the guidelines set out by Oil Companies International Marine Forum (OCIMF) ship-to-ship transfer guide and the International Chamber of Shipping (ICS) guidelines, MARPOL Chapter 8, Annex 1, Regulations 40-42.

Industry best practices are strictly followed as per the CDI/ICS/OCIMF/ SIGTTO Ship-to-Ship transfer guide for petroleum, chemicals and liquefied gases.

Our STS operations also comply with all international and local statutory law and MARPOL requirements and are carried out in line with GAC's strict compliance and ethics policies.

Highest standards of safety and professionalism that comply with international and local statutory regulations.
