

GAC Taiwan Logistics Services

**Meeting all your logistics and supply chain needs in
Taiwan since 1999**

From Keelung in the north to Kaohsiung in the south, GAC Taiwan facilitates international trade with a comprehensive suite of logistics and supply chain services at competitive rates. Our services include freight forwarding, warehousing, aviation, yacht and ship spares logistics, transport broking, project management, documentation preparation, triangle trade handling and risk management of products throughout the customs clearance process. We also have the capability to deliver a customised package of solutions to meet the renewable energy sector's needs, 24/7, around the globe.

Delivering your strategy.

Tailored services to meet your logistics needs

GAC Taiwan serves as a single point of contact for logistics services.

Strong partnership

We combine our local expertise with the global infrastructure and resources of the GAC Group to serve as your strategic partner throughout Taiwan. Cost efficiency is ensured through our centralised freight purchasing unit and strong carrier and supplier relationships. We promise time definite deliveries wherever the destination.

Reliable and experienced team

Our strong and experienced team of professionals is committed to meeting all your logistics needs. Whether you need delivery updates, cargo movement, or emergency support, our team is available round-the-clock.

Advanced IT capabilities

Our in-house IT processes give total transparency of the progress of your cargo at every step of the supply chain. We also provide you with management reports on statistics, inventory flow and key performance indicators. In addition, you can benefit from EDI transfers such as pre-alerts, manifests, and more.

Professionalism and safety

In line with the GAC Group's business philosophy, everything we do is in strict compliance with all applicable measures to ensure the highest security standards for our employees. GAC Taiwan is part of the C-TPAT network, and complies with US Customs AMS regulation.

Sectors we serve include consumer goods, textiles, pharmaceuticals, automotive, electronics, oil & gas and renewable energy (wind farms)
