

GAC Russia Shipping and Logistics Services

Integrated support at all the country's ports
and terminals

Our global network and capabilities across sea, air and
land provide the muscle you need to deliver
your strategy.

Delivering your strategy.

Established in 2001, GAC Russia provides a comprehensive range of ship agency and logistics support through its own offices and carefully selected network of agents.

Complete shipping services

Know-how and strong relationships with local authorities, suppliers and key contacts within the shipping community enable us to provide prompt turnaround for vessels in the most effective way.

Tankers are attended to at Sheskaris, IPP and CPC-R terminals in Novorossiysk, First Oil terminal in Murmansk and Tammaneftegas terminal in Taman.

We have the operational skills and expertise to provide services to all types of specialised vessels including AHTs and survey ships.

Northern Sea Route

As more vessels take the North Shipping Route, they need an agent they can rely on - especially in extreme conditions.

We meet that need with solutions tailored to your requirements, including the provision of additional equipment compliant with Northern Sea Route rules, and arranging

marine permits, pilots and tugs to facilitate your smooth passage. Specialist services include arranging transit through the Northern Shipping Route, Kerch Straits, Volga-Don Canal and other inner waterways.

Project logistics

Our key expertise lies in the transportation of project cargoes including oversized floating objects (rigs, barges, vessels, etc) from the Baltic, Mediterranean and Black Seas through the inner waterways of the Russian Federation to the Caspian region.

Offshore project support

Our fleet of offshore support vessels, one fast crew boat and a flat-top barge in Turkmenistan can be mobilised to the Russian Caspian and Black Sea for towage, anchor handling and supply operations.

All vessels are compliant with the International Safety Management (ISM) Code and hold valid safety management certificates.

Non-stop services

- Bunker fuels
- Husbandry services
- Ship agency
- Upstream oil & gas logistics
- Ship supply
- Offshore support
- Project logistics

Round-the-clock support for your oil & gas business

GAC Russia is committed to supporting offshore oil & gas exploration and extraction activities in the Black Sea.

Our supply base facilities in Novorossiysk include a dedicated berth, open and closed storage areas, chemical and drilling mud plant and office premises.

We arrange consolidation, verification, packing and freight forwarding of oil & gas equipment by air, sea and road through our network of warehouses in Houston, Aberdeen and Rotterdam.

Port forwarding is arranged in Novorossiysk and Murmansk.

Your partner in leading performance

About the GAC Group

GAC is a global provider of integrated shipping, logistics and marine services. Emphasising world-class performance, a long-term approach, innovation, ethics and a strong human touch, GAC delivers a flexible and value-adding portfolio to help customers achieve their strategic goals. Established since 1956, the privately-owned Group employs over 9,000 people in more than 300 offices worldwide.

The GAC advantage

- Dedicated and skilled team of local managers and staff
