

GAC UK Aerospace Logistics

Efficient supply chain solutions for the aviation industry

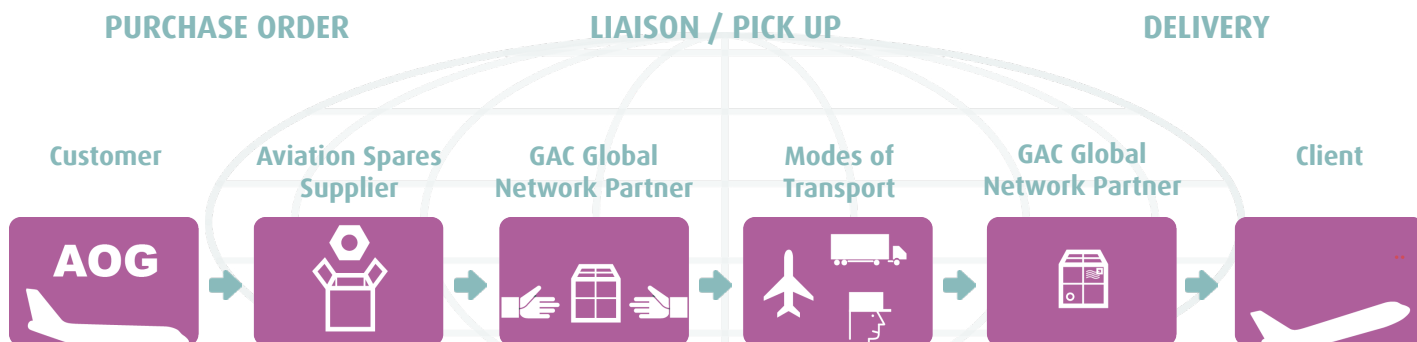

GAC UK has the know-how and the means to deliver highly specialised, time critical door-to-door services for your Aircraft on Ground (AOG) and Maintenance, Repair & Overhaul (MRO) shipments.

Let us take care of the details, while you take care of business.

Delivering your strategy.

Professional on the ground and air solutions

GAC UK's comprehensive services include delivery of critical aircraft parts, safely and on time. Our aerospace team has what it takes to deliver the critical spares / parts your aircraft needs, when and where they need them.

Your strategic partner

We put the muscle of the GAC Group's global network at your disposal, providing world-class service to and from more than 1,000 locations around the world.

Tailor-made services

Our experts have the insight and understanding needed to meet the needs of the Aircraft On Ground (AOG) and Maintenance, Repair & Overhaul (MRO) sectors. Services are tailored to the specific demands of each customer, and each case.

GAC UK draws on long-standing relationships with airlines and other partners and suppliers

to ensure that your consignments connect with the Next Flight Out (NFO). The progress of your shipment is monitored and communicated to you every step of the way.

We examine the time and cost-efficiency of all delivery options - including air freight (charter where appropriate), courier or road and recommend the best one suited to your needs.

The GAC UK advantage

- Around-the-clock support
- Multimodal options
- Experienced AOG team
- Competitive rates through global purchasing power
- Single point of contact and billing
- Full control of physical operation and communication

Flexibility to adapt swiftly to your needs.
