

GAC Marine

Complete offshore support across Middle East & GCC Waters, West and East Africa and Indian Ocean

We serve industries where projects are rarely small-scale or short-term. Your complex offshore developments receive the professional support they need, backed by our resources and expertise.

Delivering your strategy.

Our specialised fleet includes AHTS DP2, anchor handling tug supply vessels, platform supply vessels, anchor handling tugs, crew boats, tow tugs, barges and utility crafts.

Your complex offshore projects need the support of a partner with the expertise and experience to deliver. A partner like GAC Marine.

Tug and barge support

Suited for a variety of tasks ranging from general towage and barge handling to support dredging operations, our tugs serve as monitor or guard vessels. Our fleet includes modern tugs with up to 8,000 BHP and barges of up to 8,000 13,000 DWT.

Our barges range in size from 150 to 330 feet, are approved for ballasting and have the strength required for heavy lift Ro-Ro operations. They can also be used to carry coated pipes, jackets, topsides and other materials for offshore construction.

GAC Marine's group of vessels is classified with the International Association of Classification Societies members to ensure safer, cleaning shipping.

Specialised solutions

Our understanding of the highly specialised and time-sensitive nature of the oil & gas sector enables us to tailor solutions to your business requirements in a structured, flexible way.

Committed to quality

We are certified in accordance with International Safety Management (ISM) Code and hold ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ISPS Code, MLC, and OSHAD certifications.

Integrated services

- Anchor handling
- Barge transportation
- Crew changes & cargo supplies
- Guard/escort vessel services
- Offshore tanker berthing
- Pipe & offshore structure transportation
- Drilling supply
- Rig moving services

Skills to keep every project - big or small - on track

Support on demand

Our fully equipped marine base gives us the flexibility to respond to your equipment modification requirements efficiently and cost-effectively. It enables us to deliver short turnaround times for class surveys, modifications, repairs or maintenance.

Our in-house-built anchor handling tugs support crane and pipe-laying barges, rig moves, and Floating Storage and Offloading (FSO) vessels.

High safety standards

A policy of preventative rather than corrective maintenance is key to providing you with trouble-free operation and minimum downtime.

All our operations are in line with the GAC Group's Compliance & Ethics and Health, Safety, Security & Environment (HSSE) policies.

Expert solutions built for offshore operations

About the GAC Group
