

GAC Healthcare Services

Compliant, secured logistics solutions

The healthcare sector is becoming increasingly more complex – new products, safety, quality concerns and stricter regulations plus rising R&D and logistics costs on top of that.

Let GAC optimise your logistics, turning it into a strategic advantage that adds value and improves margins.

Our full range of flexible, time-sensitive services provide customers with an agile supply chain, while ensuring complete product integrity and compliance from end-to-end.

Delivering your strategy.

Whether moving a piece of medical equipment, or pallets of temperature-sensitive pharmaceutical drugs, GAC’s scalable GDP compliant global supply chain services meet your speed to market goals anywhere, anytime.

With over half a century of experience, GAC has the global reach, specialised expertise and resources to meet the stringent demands of the healthcare sector where our compliant, specialist supply chain solutions help customers succeed in their local markets and penetrate new markets.

Temperature controlled transport

Our extensive global logistics network covers efficient multi-modal transport options by air, sea and road.

Depending on the product, temperature controlled forwarding is always handled at desired temperatures. Our dedicated teams ensure that the integrity of the entire cold-chain is maintained.

GWP compliant facilities

GAC’s modern storage facilities in strategic key locations meet international hygiene standards and offer:

- Sensitive product storage
- Clean, safe and secure environment
- Strong HSSE focus

Cross-docking and fast flow-through for time-critical products help improve inventory management.

We also handle order fulfilment from inspection, pick-and-pack to delivery, as well as Value Added Services (VAS) for packing, labelling, testing, laboratory services and products retrieval where required.

Visibility and monitoring

Our robust web-based IT systems for freight tracking through to warehouse management offer you complete visibility of the entire supply chain from source to destination.

Your strategic partner

Today, we serve major customers from a wide range of categories – pharmaceuticals, medical devices, equipment, clinical trials and hospitals.

For leaner supply chains that reduce cost and generate value along the line while you focus on your core competencies, choose GAC.

Highest GDP, security and safety compliance standards

Healthcare regulations are complex, increasingly stringent and constantly changing. Compliance with the myriad of trade, safety, security and environmental regulations can be challenging.

Customising integrated supply chain solution to every customer’s specific needs, we help you maintain quality, safety, security, Good Distribution Practices (GDP) compliance and efficiency to manage your logistics challenges from end-to-end.

Sustainability, ethics and compliance

GAC Group is committed to sustainability, quality, safety, compliance, honesty and transparency in everything we do. Our operations are in full compliance with the Group’s strict compliance and ethics policies – underpinned by the GAC Code of Ethics and Quality, Health, Safety, Security & Environment (HSSE) policies.
