

GAC Humanitarian Aid Logistics

Integrated global logistics solutions for humanitarian and development work sectors

GAC has the skills, experience and expertise to quickly and efficiently deliver essential humanitarian aid shipments globally - even to challenging locations.

Delivering your strategy.

Round-the-clock aid logistics support from origin to destination

Seamless end-to-end delivery

Throughout its history, GAC has been providing logistics support for the aid and development field of operations. In the last decade, the company has worked with aid agencies and development organisations such as the World Food Programme (WFP) and Save the Children.

GAC Humanitarian Aid Logistics offers integrated global solutions to meet the unique requirements related to the flow of goods and materials into countries afflicted by humanitarian crises and natural disasters. GAC has numerous experienced professionals with wide-ranging expertise in this niche sector. We leverage on half a century of expertise in shipping and logistics in challenging markets to benefit aid agencies and their partners – to help those in need.
