

Berthing Policy & Tariff Structure

Dighi Port Limited

OUR VALUES: COURAGE, TRUST AND COMMITMENT

Issue: 02 Revision No: 04 | w.e.f. 01st Oct-2023

Note:

1. Changes in the existing BPTS from the previous edition have been highlighted. All trade notices issued till date have been incorporated in BPTS.

2. The tariff and scale of rates are subject to revision. In view of the same, please refer to the trade notices for the latest rates / tariff for a particular service or commodity.

THE TARIFF CHANGE PROCEDURE: -

The Berthing Policy and tariff Structure will be reviewed and updated BPTS sent in April and October month. The changes will be made basis the business scenario and cost of operations, keeping in view the best interest of the stake holders involved.

The changes also are reviewed from the perspective of implementation using the invoicing software.

Irrespective of the initiator of the change, the new changes will be reviewed by all SBUs and approved by the Business Head/COO and CEO.

All the trade notices will be uploaded on website https://www.adaniports.com/Downloads

All the trade notices issued from April to Sep and Oct to March will be incorporated in BPTS, October and April month revision respectively. The BPTS to be read in conjunction with trade circulars issued subsequently by the port from time to time which would also be uploaded on to the website.

Approved by	
Mr. Kapilkumar Khandelwal	CEO - Dighi Port Limited

Introduction Dighi

Port:

Dighi Port Limited (DPL) is a multipurpose, multicargo and all weather port with deep draught and direct berthing of vessels having state of the art cargo handling facilities including adequate cargo storage yards, covered godowns, liquid tank farms and backup area. The Port is located approximately 45 Nautical Miles south of Mumbai and JNPT Ports. The Port after recent take over by APSEZ is being developed to become a large port in private sector in Maharshtra. The Port is conveniently located to serve the immediate hinterland of Maharashtra, hinterland to Northwestern/South Central India.

Dighi Port is also part of the DMIC (Delhi – Mumbai Industrial Corridor) and NIMZ (National Investment and Manufacturing Zone) and is also part of the Sagarmala Project.

Salient Features of Dighi Port:

Berths:

Dighi Side (South Side):2	 multipurpose berths that can handle bulk and liquid vessels. Total Length 2 x 325m = 650m 2 MHCs having capacity of 100T each. Liquid Tank Farms of Total Capacity 65,000KL Covered godowns to handle steel coils, minerals and agri/fertilizers Open cargo plots
Agardanda Side	2 berths that can handle container and bulk vessels. Total Length 2 x 325m = 650m Bulk and
(North Side):	Container Yards under developement as pert of Ph-1.

Road Connectivity:

Agardanda Berths: Connected to NH-66 by State Highways at Indapur (SH 96 & SH 92) and Alibaug by coastal route

Dighi Berths: Connected to NH-17 by SH97 & 98

Rail Connectivity:

Agardanda Berths: Connectivity to Roha (approx. 35kms to Central Railway) is planned.

Nearest Airports:

Mumbai Pune

Section A

I. Policies

Security Policy

adani

"We are committed to provide a safe and secure working environment to all its employees, port users, cargo, ships and its personnel. This will be achieved by establishing and maintaining the required security measures to prevent unlawful acts against people, cargo and marine assets." "We shall strive to detect and deter unauthorized entrants and criminal activities in port facilities and react timely and correctly when such activities are encountered."

Quality Health Safety and Environment Policy

Adani is committed to Quality, Occupational Health, Safety and Environment in port business. We consider QHSE responsibilities are integral part of our business. To meet this commitment, port shall abide by the following principles:

- Satisfy our customers by maintaining a standard of service that consistently meets the agreed requirements;
- Focus on occupational health & safety of employees, pollution prevention, preservation & protection of environment at all times and in all circumstances;
- Identify and analyse the HSE risks arising from our activities to reduce them to the lowest possible levels;
- Eliminate or reduce the potential and severity of injuries, damages to material and non-material assets, and impact on environment & community arising out of our operations;
- Conform to applicable legislations, regulations and other requirements on QHSE and take additional measures considered necessary;
- Shall strive to achieve the QHSE goals and performance objectives, using effective management system; and reviewed to improve performance;
- Develop, conduct and promote education and training to improve QHSE performance;
- Continually improve QHSE management system by monitoring, evaluating and reviewing through the definition of operational standards, assessments and audits.Communicate our policies and standards to employees, suppliers, business partners and where necessary work with them to raise their standards
- IMDG: Class 1 & 7 cargo is not acceptable at Adani port.

II. Definitions

- Agent: A person authorized to transact business for and in the name of another person or company. Types of agents are: (1) Brokers, (2) Commission Merchants, (3) Resident Buyers, (4) Sales Agents, (5) Manufacturer's representatives.
- Beam: The width of the ship.
- Berth: A space for a ship to dock or anchor.
- **Bonded Warehouse:** A warehouse authorized by Customs authorities for storage of goods on which Payment of duties is deferred until the goods are removed.

- **Break Bulk:** To unload and distribute a portion or all of the contents of a rail car, container, trailer, or ship. Loose, non–containerized mark and count cargo, packaged cargo that is not containerized.
- **Bunkers:** A maritime term referring to fuel used aboard the ship. In the past, fuel coal stowage areas aboard a vessel were in bins or bunkers.
- **Bill of Lading :** Shall mean a documents that establishes the terms of contract between a Shipping and a Transportation company.
- Calendar day : A Calendar day time period is considered from midnight to midnight (i.e. 0001 to 2359hrs).
- **Cargo:** All goods, materials, merchandise, or wares carried on board an aircraft, ship, train, or truck.
- **CB:** Container Berth.
- **CBM (CM):** Abbreviation for "Cubic Meter." CBM measurement is L x B x H.
- **CFS:** Abbreviation for "Container Freight Station." A shipping dock where cargo is loaded ("stuffed") into or unloaded ("stripped") from containers. Generally, this involves less than container load shipments, although small shipments destined to same consignee are often consolidated. Container reloading from/to rail or motor carrier equipment is a typical activity. These facilities can be located in container yards, or off dock.
- **Cold move:** The vessel's engine and steering gear should be available for use at all times during the manoeuvre. If it is fails during berthing / un-berthing / shifting process, it will be treated as cold move and charged as per tariff.
- **Coastal** : "Coastal vessel" shall mean any vessel exclusively employed in trading between any port or place in India to any other port or place in India having a valid coastal licence issued by the Director General of Shipping/Competent Authority.
- **CT:** Container Terminal.
- Deadweight Tonnage (DWT): Appropriate seasonal deadweight.
- **Detention for cargo on equipment:** Additional charges will be applicable on shippers or consignees for delaying carrier's equipment beyond allowed time. Demurrage applies to cargo; detention applies to equipment.
- **Draft:** Vertical distance between the vessel's water line and the lowest part of its hull.
- **Dunnage:** Any material or objects utilized to protect cargo. Examples of dunnage are blocks, boards, burlap and paper.
- **Drifting**: Vessel not at anchor or made fast to a berth. In simple words when a vessel is afloat and in no way is touching the ground or seabed.
- **Double Banking operation :** Tow vessels are banked together for cargo operation.

- **ETA:** Expected Time of arrival.
- **Export:** Shipment of goods to a foreign country.
- FCFS: First Come First Served.
- Freight Forwarder: A person whose business is to act as an agent on behalf of the shipper. A freight forwarder frequently makes the booking reservation. In the United States, freight forwarders are now licensed by the FMC as "Ocean Intermediaries.
- FRT: Freight Tones: CBM or MT whichever is higher. Individually calculated for the packing list.
- Foreign : Foreign-going vessel" shall mean any vessel other than Coastal vessel.
- **GT:** Gross Tonnage. The unit of measurement for the gross content of a Seagoing Vessel as referred to in the International Convention on Tonnage Measurement of Ships, London 1969 (Treaties journal 1979, no 122 and 194) as mentioned in the vessel latest International tonnage certificate.
- International Ship and Port Facility Security Code (ISPS): It is an amendment to the Safety of Life at Sea (SOLAS) Convention (1974/1988) on minimum security arrangements for ships, ports and government agencies. Having come into force in 2004, it prescribes responsibilities to governments, shipping companies, shipboard personnel, and port/facility personnel to "detect security threats and take preventative measures against security incidents affecting ships or port facilities used in international trade."
- IWPM / OWPM: Inward Pilot Memo / Outward Pilot Memo.
- **Idling:** If a vessel is alongside the berth without carrying out any cargo operations.
- Kg: Kilogram.
- LOA: Length Overall.
- LPG : LPG is a type of fuel consisting of hydrocarbon gases in liquid form. LPG is an abbreviation for 'liquefied petroleum gas'
- Monsoon Period for Dighi port: Monsoon period at Didhi Port is from 15th May to 30th September each year.
- Mtrs: meters.
- MW: Megawatt.
- NH: National Highway.
- **O.D.C:** Over Dimension Cargo.
- **On Board:** A notation on a bill of lading that cargo has been loaded on board a vessel. Used to satisfy the requirements of a letter of credit, in the absence of an express requirement to the contrary.
- **P&I:** Protection & Indemnity.

- page
 - **PANS:** Pre-arrival notification of security.
 - **Per day:** 24hrs calculated from commencement of the mentioned activity. Any period part thereof will be considered as full day and charged accordingly.
 - **POC:** Port Operation Center.
 - Priority Berthing:
 - **Ousting Priority**: If a vessel having an ousting priority for a given berth, then the working vessel at that berth will be removed from the berth to accommodate the vessel having ousting priority. The vessel working on the berth will however be removed only when it is safe to do so.
 - **Priority**: If a vessel having a priority for a given berth arrives, then she will berthed ahead of other vessel waiting for that berth once the berth falls vacant.
 - Overriding Priority: If a berth has been allotted to a specific cargo/receiver, then these vessels will have priority on that berth. However if a vessel with overriding priority arrives and requires the use of that berth, she will be berthed ahead of other waiting vessels having the same cargo/receivers.
 - **Ro/Ro:** A shortening of the term, "Roll On/Roll Off." A method of ocean cargo service using a vessel with ramps which allows wheeled vehicles to be loaded and discharged without cranes. Also refers to any specialized vessel designed to carry Ro/Ro cargo.
 - Salvage operations : Salvage is one service offered by the port under the general heading of emergency response to distressed vessels that is, emergency response to render assistance to vessels in danger, or potentially in danger and/or the process of rescuing a vessel, her crew and cargo from hazard and danger in port or at sea.
 - **TEU:** "Twenty feet Equivalent Unit." is an exact unit of cargo capacity often used to describe capacity of container ships.
 - **Timings**: All timings will be based on Pilotage Certificate which is signed by the vessel's Master.
 - **TPH:** Tons per hour.
 - Trans-shipment Port: Place where cargo is transferred to another carrier.
 - VCN: Vessel Call Number.
 - Warehouse: A place for the reception, delivery, consolidation, distribution, and storage of goods/cargo.
 - Warping: Physical shifting of the vessel maximum 100 mtrs ahead / astern on the same berth same berth.
 - WB: West Basin.
 - Types of Ships:
 - **Bulk Carriers:** All vessels designed to carry homogeneous cargo in bulk, such as fertilizers, ore, coal, minerals and grains.

- **Freighters:** Break-bulk vessels both refrigerated and unrefrigerated, containerships, partial container ships, roll–on/roll–off vessels, and barge carriers. A general cargo vessel designed to carry heterogeneous mark and count cargoes.
- o Barge Carriers: Ships designed to carry barges; some are fitted to act as full container.
- **General Cargo Carriers:** Break-bulk freighters, car carriers, cattle carriers, pallet carriers and timber carriers. A vessel designed to carry heterogeneous mark and count cargoes.
- **Cellular Container ships:** Ships equipped with permanent container cells, with little or no space for other types of cargo.
- **Partial Container ships:** Multipurpose container ships where one or more but not all compartments are fitted with permanent container cells. Remaining compartments are used for other types of cargo.
- o **Roll–on/Roll–off vessels:** Ships specially designed to carry wheeled containers or trailers using interior ramps.
- STS : Ship-to-ship transfer operation is the transfer of cargo between seagoing ships positioned alongside each other, either while stationary or underway. Cargoes typically transferred via STS methods include crude oil, liquefied gas, bulk cargo, and petroleum products.
- **Tankers:** Ships fitted with tanks to carry liquid bulk cargo such as: crude petroleum and petroleum products, chemicals, Liquefied gasses (LNG and LPG), wine, molasses, and similar product tankers.
- Free pratique: means permission for Ship/vessel to enter into the port limits, embark or disembark, discharge or load cargo or stores. Free Pratique is granted by Public health officer (PHO).
- Quarantine: Quarantine means the restriction of activities and/or separation of suspect persons who are not ill or of suspect baggage, containers, ship/vessel or goods from others in such a manner so as to prevent the possible spread of infection or contamination.

III. Berthing Policy

1. Berthing Objective

The objective of the Berthing Policy at Dighi ports is to provide well-defined, transparent, and non- discriminatory guidelines for the allocation of berths at the Port, based on vessel pre-notification, arrival, and administrative compliances.

2. Rationale

The aim of this BPTS is to provide the user with relevant information for planning of a vessel call at the port and the charges that are likely to be incurred.

3. Berthing scheme: First come First serve (FCFS)

The Port, as a general rule, adopts the policy of First Come First Serve (FCFS) basis. Container vessels are generally accepted basis their berthing windows as agreed between the Shipping Line

and the concerned Container Terminal. For all cargo vessels, the following criteria will be used by the Port for determining the berthing priority:

- **3.1** The vessel has duly submitted the required Declaration / Information / PANS (ISPS) prior vessel's arrival / statutory compliance of government directives as issued from time to time. Vessel's agents are required to declare their vessels through APMS. All vessels related details are to be updated in vessel definition and vessel registration. The details should be entered as per the vessel's particular. In case any information is incomplete or missing in SMARTEPIC/IPOS, the vessel's application for berth will not be accepted.
- **3.2** Vessel agent has to pay all the Port charges in advance as per PAA raised by the Port. The first PAA will be generated basis the berth hours expected by the agent subject to a minimum berth stay of 24 hours. In case the vessel completes her cargo operation in less than 24 hours, the additional berth hire charges will be adjusted in the final invoice. Maximum 6 digit digits after decimal (upward round off) will be consider in USD rate for invoicing of Marine charges.
- **3.3** Vessel has given at least 5/3/2/1 days notices of Expected Time of Arrival (ETA), except vessels calling from nearby ports or the voyage duration is around 1 day, which are required to provide one day notice.
- **3.4** Vessel which has physically arrived within the port limits or at defined position and registered herself with Port Marine Control giving all the vessels particulars. Physical arrival means the time of arrival of vessel into Port Limits or at defined position.
- **3.5** Seniority of a vessel will be counted basis the time of her physical arrival, filing of IWPM, Cargo readiness, clearance from concerned department with respect to cargo readiness, receipt of pipe check list, verification of packing list and Terminal readiness whichever is later and applicable for that vessel.
- **3.6** Contractual agreements in place: Customers who have entered into long term contracts with the Port will be given priority in berthing as per their contractual terms & conditions. Port will not be liable for payment of any damages / claims / delays / detentions / demurrages etc. to vessels, whose berthing is delayed due to berthing of junior vessels which have been given priority in berthing as per their contractual agreements.
- **3.7** In case of pipe export vessels, seniority will only be considered for vessels if "80% Let Export Orders" of each type/size/ diameter of pipe is available in the Port for loading. If cargo is found to be less than the aforementioned quantity, such vessels will not be considered / discussed in Port berthing meeting and seniority of such vessels will only be considered upon meeting the aforementioned norms. Similarly for other export cargoes, seniority will only be considered provided 80% with LEO of the cargo is inside the Port.

4. General guidelines for all Vessels

4.1 The vessel's engine and steering gear should be available for use at all times during the maneuver. If a vessel's engine or steering fails during any point of the berthing / un-berthing / shifting manoeuvre, it will be treated as cold move and will be charged as per Port tariff.

Note: If vessel engine fails during outward Pilotage and cold move charges become applicable to such vessels, the vessel may be required to wait at anchorage until payment confirmation for cold move charges is received from the vessel owners.

adani

page

- 4.2 Any vessel deficiency must be reported to the port well in advance through email to Marine Control/Portopscenter at <u>dpl.radio@adani.com</u>, <u>dpl.marine@adani.com</u>, <u>AND</u> Head-Marine Services raghvendra.raghav@adani.com</u> or through VHF on Channel 69 to Dighi Port Marine Control prior berthing / un-berthing / shifting warping operations. Non reporting of such deficiency will attract charges as per BPTS vessel depending upon the type of deficiency. If engines or steering is not available then these maneuvers will be considered as cold move and charged as per Port tariff.
- 4.3 A vessel refusing an allocated berth for any reason will lose her seniority.
- 4.4 The Port permits priority berthing for vessels carrying government cargoes (as may be declared from time to time) for which 100% additional berth hire may be charged by the Port as per the Management's discretion. Priority berthing is also granted to long term contractual partners.
- 4.5 Priority berthing is also granted to long term contractual partners, as a general rule, ousting priority is not available. However if the port is forced to grant ousting priority to any vessel for whatsoever reason, all related charges including but not limited to viz. shifting, time lost, equipment idling etc will be payable by the vessel requesting ousting priority.
- 4.6 A '2 hours' notice will be given to vessels for reaching PBG (Pilot Boarding Ground). Any vessel which requires more time than the above notice has to inform Port Control well in advance through her agent or via VHF as difine in the ALRS (DPL Port Ch-69).
- 4.7 If for any operational reasons or Port convenience, a junior vessel is berthed by superseding the seniority of other vessels, the junior vessel will revert back to her original position in the seniority list if she is shifted out to anchorage.
- 4.8 By making an application for an accepting the berth or other services and facilities in the port, the Vessel and the agent agrees to be bound by the provisions of the General Terms and Conditions for Services, Facilities and general tariff charges as issued and amended from time to time by the Port.
- 4.9 **Preferential berthing for Naval / Coast Guard Ships:** Naval vessels, Indian Coast Guard vessels and other Govt. vessels will be accorded preferential berthing subject to berth availability and Port discretion.
- 4.10 For all import steel and project vessels, vessel is to be declared with party wise packing list including receiver's details in an excel sheet. For all pipe export vessels, vessel is to be declared with duly filed "Pre Arrival Check list". In absence of same, Port will conditionally declare the vessel and VCN will be provided which allows respective vessel to anchor at Dighi roads. However the vessel will be considered for berthing seniority only after berthing clearance is received from Dry cargo or Marketing Team as required by the Port. Above procedure will be followed for all vessels arriving in port for import/export of bulk cargoes.
- 4.11 All ships calling the port to get free pratique clearance from the Port Health Officer, prior their arrival. In case vessel requires boarding of PHO for clearance the port will take 1.5 hrs notices for berthing of vessel after it is cleared by PHO.
- 4.12 In case of project cargo, containers or ODC if a variation in Weight / Dimensions between declared cargo weight / Dimensions and actual cargo weight / Dimensions is more than 5% (Actual being higher than declared) then the port would impose an additional stevedoring charge equivalent to the existing tariff as per BPTS or tariff as agreed in applicable contracts.

5. Clarification regarding acceptance of Notice of Readiness time

- 5.1 If Pilot boards the vessel on arrival, then the Pilot boarding time will be considered as the NOR time.
- 5.2 If vessel does not get Pilot on arrival and the vessel drops anchor in the port anchorage area, than the anchor dropped time will be considered as NOR time.
- 5.3 In case a vessel drops anchor in the port anchorage area but does not file Inward Pilot request then the time of filing the inward pilot request will be considered as NOR time.
- 5.4 In case a vessel physically arrives at 1 mile from Port's pilot station and waits for pilot to board the vessel without dropping anchor then the time of arrival to such position which is 1 mile from PBG will be considered as NOR time. The time of arrival along with NOR time has to be communicated and confirmed with Marine control.

6. Daily Port Berth Planning Meeting (Port Operation Center)

The Port holds Daily Berth Planning Meeting at 1100 hrs on all working days, to plan the allocation of berths for the next 24 hours commencing from 1200 hrs on that day. The vessels agent and concerned parties shall be notified through auto Tentative Berth Plan by 1200 hrs and 1800 hrs through Port Operation Center. Allocation of berth to any vessels other than the FCFS policy will be purely on Port's discretion.

7. Dry cargo breaks timings

- 7.1 0800 to 0900 hrs Shift change.
- 7.2 1300 to 1400 hrs Lunch Break.
- 7.3 2000 to 2100 hrs Shift change.
- 7.4 After completion of break timing, the work should start at the strike of the clock.

8. General conditions for berthing / un-berthing and cargo operations of vessels

8.1 Vessel will not be considered for berthing if the Vessel:

- 8.1.1 Is poorly maintained and is considered unsafe for berthing by the Port.
- 8.1.2 Has invalid statutory certificate, including expired load test certificates of cargo gears.
- 8.1.3 Is blacklisted by Port State Control.
- 8.1.4 Is not manned as per Safe Manning Document.
- 8.1.5 If vessel does not produce proper proof to show that the vessel is suitably insured under DG Shipping authorized P&I club to cover the risk of damage to any port installations (fixed and floating), wreck removal, water, air Pollution and consequent civil liability and any other risks applicable. Restrictions / Instructions / Circulars issued by Government of India and State Maritime Board will be strictly adhered to.

- 8.1.6 Vessel should arrive and depart the port either on even keel or with a positive trim and minimum list. In no case should the vessel be trimmed down by the head or have a list of more than 0.3 degree. In case a vessel is found to be trimmed down by head, the movement of such a vessel may be cancelled for safety reasons as such vessels are very sluggish in handling which is not acceptable in a strong tidal port. Such vessels will be provided pilot only after they have corrected their list and trim. For container vessels which have trim up to 40 cm down by head shall be permitted on case to case basis on prior intimation to Port Control.
- 8.1.7 Draft survey of a vessel which is down by head and listed more than 0.3 degrees will not be conducted unless the vessel comes on even keel and reduces the list to 0.3 degrees. All delay, detention and cost arising from negative trim, list exceeding 0.3 degrees and inability to comply with minimum draft and trim requirement will be on vessels account.
- 8.1.8 Delivery order has to be submitted by the agent to the Port prior berthing of the liquid vessel. Without DO, the vessel will only be berthed if the agent gives in writing that the agency agrees to pay the storage rent and / or any charges which may become payable due to the agent holding the delivery of the cargo.
- 8.1.9 Bulk and Break Bulk vessels will be berthed only after submission of discharging permission by Agent.
- 8.1.10 Vessels shall be un-berthed only after the payment of all port charges, completion of formalities and issuance of the No Dues Certificate by the Port Authorities and Port Clearance from the customs. The agent who declares the vessel will remain responsible for payment of all marine related dues. No marine services will be provided to any other appointed agent unless he makes advance payment towards the same or gets the approval of the main agent to avail any marine related services.
- 8.1.11 In case any accident takes place on board the vessel in which port personnel / contractor staff are injured, the vessel will be held responsible for the same and will be liable for compensation. The amount of compensation decided by the port will be final.
- 8.1.12 Notwithstanding anything contained above, The Port shall retain the right to prioritize any or all the above conditions depending on new developments / special circumstances which may have changed from what was discussed during the Berth Planning Meeting. Decision of the port on berth planning and allocation will be final and binding on all concerned.
- 8.1.13 **"CONDITION OF USE**" is a mandatory requirement and is to be filled up, signed, stamped and delivered to the pilot before commencement of Pilotage.
- 8.1.14 Tank cleaning, Purging, Gas Freeing or inerting is not premitted for tanker vessels at berth under normal conditions.

8.2 A vessel may be removed from berth for the following reasons.

- 8.2.1 If the vessel is considered unsafe or hazardous for port safety.
- 8.2.2 If the vessel is equipped with poor and unsafe cargo gear.

- 8.2.3 If the vessel does not correct deficiencies pertaining to safety brought to her notice within the stipulated time.
- 8.2.4 In case the weather deteriorates or is likely to deteriorate.
- 8.2.5 If the stowage of cargo is improper or incorrectly declared.
- 8.2.6 The vessel is under performing as per port norms or idling at the berth without proper justification, the vessel will be un-berthed and applicable shifting charges will have to be borne by the vessel.
- 8.2.7 Makes a request for early un-berthing.
- 8.2.8 Has made a wrong declaration.
- 8.3 Performance of the vessels which are alongside the berth would be continuously monitored up to 08:00 hrs and will be discussed in the Daily Berth Planning Meeting. If a vessel is underperforming, the vessel's agent will be advised in writing to improve the vessel's performance. If by next day 08:00 hrs, the vessel's performance is still found to be unsatisfactory, a notice may be served to the Master to un-berth the vessel. Work stoppages beyond the control of the vessel or the Port will be excluded while evaluating the performance. Reasons such as lack of cargo and documents, poor or uneven stowage, unusually slow and unproductive cargo handling gears will not be accepted as valid reasons for poor performance of the vessel.
- 8.4 Vessels failing to meet the minimum required norms for loading and discharging will be de- berthed solely at the discretion of the Port.
- 8.5 The port shall remove a vessel from the berth on vessel account if, the vessel is unable to meet port's productivity norm due to failure of her equipment and the port is not in position to provide shore resource. The shifting of the vessel from berth will however be done only if another vessel arrives and requires the use of that berth.
 - A shifting movement means:
 - Physical shifting of the vessel more than 100 mtrs ahead / astern.
 - From one berth to another berth or from one berth to anchorage and re-berth.
 - A warping movement means: Physical shifting of the vessel maximum 100 mtrs ahead / astern on the same berth.
 - A turnaround movement means: Un-berthing the vessel from its berth and re-berthing it at the same berth on a different side.Pilotage charges will be charged in case of turnaround movement.

9. Free time allowed to vessels prior cargo commencement and after completion

- 9.1 A vessel should be ready for commencement of cargo operation in all respect within 3 hours of all fast time. In case the vessel cannot commence her cargo operation within 3 hours, layup berth hire as per Port Tariff shall be applicable.
- 9.2 A vessel wanting to over stay beyond the allowed 3 hrs after cargo completion shall make a request for over stay at least 2 hrs prior vessel's sailing time. Such a request will be accepted on case to case basis provided there is no vessel waiting for the use of the berth and the Port has not planned any maintenance activity on the berth. The Port's decision on such request would be final. In case, the Port refuses permission to over stay, the vessel will have to vacate the berth. The additional time beyond 3 hrs will be given on lay-up berth hire till the outward pilot request time.
- 9.3 If cargo stoppage is more than 2 hours due to failure of vessel equipment's or gear, idling at berth or for any other reasons. Lay-up berth hire as per Port Tariff shall be applicable as per conditions laid below.
- 9.4 Total cargo stoppages should not exceed 2 hours during the entire port stay of the vessel or else lay-up berth hire will become applicable.
- 9.5 Whenever a vessel is given due notice by the Port to vacate the berth on account of either under performance or for safety reasons and the Master of the vessel refuses to vacate the berth after 2 hours of due notice by the Port, the Port will charge 2 times the berth hires as mentioned in the port tariff in addition to berth hire charges. Pilot detention and cancellation charges where applicable will be as per Port Tariff.

10. Lay-up berth hire

- 10.1 In case of cargo stoppage which is attributable to failure of vessel's machinery and equipment, layup berth hire will become applicable after the stipulated time allowed for such stoppages provided there are no vessels waiting for berth. The vessel will revert to normal berth hire when the vessel's machinery & equipment are operational or shore equipment deployed for operation on vessel request.
- 10.2 In case, a vessel is on layup berth hire, vessel is Idling due to equipment failure and another vessel arrives and requires the use of same berth, the vessel will be shifted out to anchorage on vessel's / owner / agent account.
- 10.3 Additional stay at berth after cargo completion may be permitted if there is no vessel waiting for the berth. The request for additional berth stay at lay-up berth hire should be made at least 3 hours before cargo completion time. Vessel has to vacate the berth within 2 hours of receiving notice if the berth is required by Port or else "Non vacating of berth" charges as applicable will be applied on the vessel.
- 10.4 Layup berth hire charges will not applicable to Country crafts, SPM.
- 10.5 Layup berth hire will not applicable on Tug which has towed with dumb barge into the port for cargo operations provided it is made fast alongside the dumb barge. Layup charges in case of additional stay on berth will be applicable only on the dumb barge on hourly basis. The tug will continue to be charged at normal berth hire rates.

- 10.6 Lay up berth hire will not be applicable if there are cargo stoppages due to bad weather condition/rains unless the cargo was already stopped prior start of bad weather/rains period. The timings will be taken from respective SBU.
- 10.7 Port will not charge layup berth hire charges on vessel which stay on the berth after cargo completion if vessels are receiving bunker / freshwater / waste collection. This will be subject to the following conditions:
 - 10.7.1 There are no vessels waiting for that berth.
 - 10.7.2 The concerned terminal / Marine department should not have planned any maintenance activity on that berth.
 - 10.7.3 The request for additional berth stay should be made at least 24 hours prior cargo completion so that other vessel movements at other berths are not adversely affected.
 - 10.7.4 The concerned vessel will get pilot only after other planned vessel movements have been carried out. Efforts will however be made not to unduly delay these vessels.

11. Import / Export voyage in same VCN

- 11.1 As a general rule after completion of discharge operations, a vessel has to vacate the berth for other vessels waiting at the anchorage. If the same vessel is fixed for loading, her arrival time for loading operation will be considered only after she has completed her previous cargo and is thereafter ready to load cargo in all respects.
- 11.2 In case a new VCN is issued upon request, the second call will be treated as a fresh call and all marine dues will be applicable to the vessel.
- 11.3 After completion of Import cargo, if vessel goes outside of the port limits for hold cleaning/ operational requirements and coming back to load export cargo in same vessel, then New VCN will be provided for Export cargo operation. All the charges will be applicable as per BPTS.

12. Anchorage charges

- 12.1 Anchorage charges will be applicable from the time of vessel dropping anchor till the time the pilot board the vessel for berthing, for all vessels anchoring within Port limits other than the below.
- 12.2 Those vessels which are governed by individual long term Marine services contracts.
- 12.3 SPM vessels which will continue to be charged as per their contracts or the full anchorage rates.

13. Documents required in prescribed format through APMS/IPOS/SMART EPIC for declaration

The vessel's agent should submit the following documents in the prescribed format through APMS/IPOS for vessel declaration prior to physical arrival in Port. The vessel will be considered

for berthing only after completion of declaration formalities and submission of pre-arrival documents as per Port Berthing Policy.

13.1 General Documents required for all vessels declaration

- a. Berthing application MAR/F/003
- b. Vessel & cargo particulars part A MAR/ F/ 011
- c. Vessel acceptance navigational checklist- Part B
- d. International Tonnage certificate.
- e. Ship particulars.
- f. P&I certificate
- g. Certificate of Class
- h. Agency appointment letter from Owner of vessel
- i. Certificate of Registry
- j. Safe Manning Certificate
- k. International oil Pollution Prevention Certificate
- I. Pre arrival notices of 5/3/2/1 days, PANS as per ISPS Code requirement

13.2 In addition to general docs following additional documents required for Bulk & break bulk:

- a. Last port draft survey report for fertiliser vessel.
- b. Fertiliser checklist
- c. Pre arrival pipe export stevedoring check list
- d. Stowage Plan.
- e. Discharge or loading sequence.
- f. IGM to be submitted 24 hrs prior arrival of vessel
- g. Cargo declaration with client details, Requirement shore crane, Forklift
- h. Export General Manifest is to be submitted within 9 days of vessel sailing
- i. Complete Packing list for discharge / Load with Length x Width X Height (CBM) and Metric ton for calculating Package wise FRT (Freight Ton)." In case of Break Bulk cargo, above documents are required to be submitted by the vessel agent before berthing of vessel, both in Excel as well as PDF formats.

Note: The dimension to be considered should be of the biggest package and not of the smaller ones packed in the bigger package. Packing list submitted by the agent will be final. Receivers full details for each package to be submitted to port prior berthing. CIF/FOB value of the cargo for Imports/Exports to be provided by the concerned prior to berthing of vessel. In case of non-submission or incomplete documentation port will be constraint to berth the vessel.

13.3 In addition to general docs following additional documents required for Liquid vessel:

- a. Q-88 (All trading certificates should be valid).
- b. Stowage Plan.
- c. IGM to be submitted 24 hrs prior arrival of vessel
- d. Cargo declaration with client details
- e. Temperature report for heated cargo
- f. Pre-arrival exchange information checklist
- g. MSDS for all cargoes (loading/discharging and transit cargoes)
- h. Export General Manifest is to be submitted within 9 days of vessel sailing.

Note : Apart from above documents all compliance of DG Shipping / MMB or any other authorities to be followed by the vessels / vessel agent while vessel calling in Dighi Port limit.

14. Minimum Notice required for filing Pilot request through APMS / IPOS / SMART FPIC

LFIC								
	MMPT (Dry, Liquid, LPG and Containers)							
Inward Pilot request Minimum notice 4 hrs from Pilot request time								
Outward Pilot request	Minimum notice 3 hrs from Pilot request time							
dpl.marine@adani.com AN Control with minimum 02 cancellation and revision w	amendment can be accepted through email to <u>dpl.radio@adani.com</u> , D <u>raghvendra.raghav@adani.com</u> or through VHF on Channel 69 to Dighi Port Marine Phrs minutes' notice for IWPM and 1hrs 30 minutes' notice for OWPM. Only one will be accepted. Thereafter minimum 2 hrs. notice has to be given for revision of pilot DWPM & IWPM timing have been amended will be given a pilot only after all other been carried out.							

15. Swapping of Seniority

Swapping of berthing-seniority between vessels may be permitted by the Port provided the agent or agents of the affected vessels and /or the respective cargo interests jointly request the Port for exchange of seniority in the pre scribed application form and agree to indemnify the Port against any claims whatsoever may arise there from. The agency which intends to swap the seniority of its vessels must take into consideration other agents whose vessel will be adversely affected due to swapping of seniority. LOA / Productivity of vessel being swapped will be considered before accepting the swapping request.

16. Shifting of vessels

- 16.1 No Charges shall be levied for shifting of a vessel for Port Convenience. "Port Convenience "is defined to mean the following:
- 16.2 If a working cargo vessel at berth or at mooring point is shifted for port to undertake hydrographic survey work, dredging, repair and maintenance of berth, or such other similar activities whereby shifting is necessitated, such shifting shall be considered as "shifting for port convenience". The shifting made to reposition such shifted vessel is also considered as "SHIFTING FOR PORT CONVENIENCE".
- 16.3 If a working cargo vessel is shifted from berth to accommodate on ousting priority vessels which are exempted from bearing shifting charges, such shifting shall be treated as "SHIFTING FOR PORT CONVENIENCE".
- 16.4 Whenever a vessel is shifted to accommodate another vessel carrying hazardous cargo which needs adjacent berth to be kept vacant for safety reasons is also considered as "SHIFTING FOR PORT CONVENIENCE.
- 16.5 Whenever a vessel is shifted from berth to accommodate another vessel which cannot be berthed at other berths due to draft and LOA restrictions vessel is considered as "SHIFTING FOR PORT CONVENIENCE".
- 16.6 Whenever a vessel is shifted to accommodate another vessel having priority at the adjacent berth and unless that vessel shifts, another vessel cannot be berthed at the adjacent berth due to length restrictions such shifting is also considered as "SHIFTING FOR PORT CONVENIENCE"

- 16.7 Whenever as vessel is shifted to another berth or at anchorage due to operational requirement, "SHIFTING FOR PORT CONVENIENCE".
- 16.8 Whenever a vessel is shifted to accommodate another vessel on ousting priority, the vessel shifted will be required to pay shifting charges.
- 16.9 Similarly shifting charges will also be applicable in the following cases of shifting:
 - 16.9.1 Non-cargo vessel which in any case have to vacate the berth when cargo vessels arrive.
 - 16.9.2 Vessels which are idling at berth without doing any cargo handling operations.
 - 16.9.3 Vessels which are under performing due to reasons attributable to either the vessel or principals.
 - 16.9.4 Vessel vacating the berth due to bad weather/storm 50% of the shifting charges will be applicable.
 - 16.9.5 Vessel vacating berth due to bad weather/storm under Planned/Unplanned cold move Planned/Unplanned cold move charges will be applicable.

17. Immobilization Permission

If vessel wants to carry out M/E maintenance work during her Port stay the Port will grant Immobilization permission subject to the following terms and conditions on port's discretion. After completion of permitted time, fresh Immobilization requisition has to be filed for completion of the remaining work. The Immobilization should be completed prior to completion of cargo operations. The Master of the vessel should inform Dighi Port Marine Control on VHF Ch-69 prior immobilizing the ships engine and after repairs have been carried out. In case the vessel is unable to sail out after cargo completion due to engine repairs in progress, then layup berth hire will be applicable.

- 17.1 Permission will have to be obtained in writing.
- 17.2 Master to ensure that the vessel remains safely alongside and if required to double up the moorings.
- 17.3 Port will give 4 hours' notice to get the vessel's engine ready in case of emergency.
- 17.4 In case, the vessel is unable to remain alongside the berth for whatever reason, any pilot / tug / mooring crew assistance provided by the Port will be on a chargeable basis.
- 17.5 Due care should be taken by ship's crew in tending the ship's mooring lines, as Dighi Port has strong tidal currents or off shore winds at some of the berths. The vessel will come off the berth in case the mooring lines are not tended properly.
- 17.6 Cancellation of Immobilization request shall be considered only if it is rendered 2 hours after all fast time or else charges will be applicable. If vessel is already at berth at the time of request then once permission granted the charges will remain applicable.

<u>page</u>

18. Standard time for cargo commencement and completion

Sr.No.	Types	Case	Cargo commencement	Cargo completion
18.1	Containers	IMPORT / EXPORT	Cargo commencement takes place after unlashing of containers the first container loaded or unloaded.	After handling of gearbox the last container loaded or unloaded.
		IMPORT	First grab discharge into the hoppers or shore	Full cargo discharge and after removal of all equipment from the vessel.
18.2	Bulk	EXPORT	First grab discharge into the ship's cargo hold.	After completion of cargo loading, trimming and removal of all shore equipment from the vessel.
10.2	Break Bulk /	IMPORT	Commencement of cargo Lashing removal.	Full cargo discharge and after removal of all shore equipment.
18.3	Project Cargo	EXPORT	Commencement of dunnage Laying in the cargo hold.	After completion of cargo Lashing and removal of all shore equipment.
18.4	Liquid,	IMPORT	When cargo passes the ships manifold into the shore line.	Air blow completion time and when receiver gives the go ahead for hose disconnection.
	EXPORT		Commencement time of Cargo pumping from Terminal.	When the vessel is informed to close the manifold valve.

SECTION B

19. Berth Parameters, the indicative berth allocation parameters are given in the following table

	Dighi Bertł	n Details		Vessel		Cargo
No	L	Remarks	LOA	Displacement	Beam	Туре
MP1	325	Total quay	300	150000 T	48m	Bulk / Liquid
MP2	325	length 650 m	300	150000 T	48m	Bulk / Liquid

Berthing Policy & Tariff Structure

<u>page</u>

Agarda	nda Berth D	Details		Vessel		Cargo
No	L	Remarks	LOA	Displacement	Beam	Туре
CT1	325	Total quay length 650 m	300	150000 T	48m	Container/ Bulk
CT2	325	length 050 m	300	150000 T	48m	Container/ Bulk

Notes:

- 19.1 The depths around the berths are checked periodically. The maximum permissible draft at each berth is promulgated on monthly basis and issued to Trade.
- 19.2 Non container vessels allocated berth at the container terminal shall vacate the berth for a container vessel which has priority at the berth. Shifting charges for the same shall be borne by the vacating vessel. A minimum of 6 hours' notice for shifting will be given to the vessel.
- 19.3 A minimum safe clearance of 25 meters to 35 meters will be maintained in between vessels.
- 19.4 A Minimum safe clearance of 75 meters is required during berthing of PCC (Car Carriers) While minimum safe clearance of 65 meters is required during un-berthing of PCC (Car carriers).

20. Berth allotment criteria

	BERTHING POLICY
DIGHI MP-1	First Come First Serve (FCFS) subject to conditions mentioned in the Notes.
DIGHI MP-2	First Come First Serve (FCFS) subject to conditions mentioned in the Notes.
AGARDANDA CT1	First Come First Serve (FCFS) subject to conditions mentioned in the Notes.
AGARDANDA CT1	First Come First Serve (FCFS) subject to conditions mentioned in the Notes.

Notes:

- **20.1** Vessels arriving from within nearest Port shall give a minimum of 24 hrs notice of Arrival (NOA) with an indication of the IWPM filing time with 3 hours accuracy.
- **20.2** If the vessel arrives outside the 3 hours window or files her IWPM outside the 3 hours window, it will be considered for berthing only after 24 hrs.
- **20.3** Non container vessels may be allocated berth at the container terminal when the container berth is expected to remain vacant for a period of more than 24 hours and subject to certain conditions.

- **20.4** Non container vessels allocated berth at the container terminal shall vacate the berth for a container vessel which has priority at the berth. Shifting charges for the same shall be borne by the vacating vessel. A minimum 6 hours of notice for shifting will be given to the vessel.
- **20.5** The Port shall not be responsible for any delay in pilotage, berthing, ingress or egress for any reason whatsoever.
- **20.6** The port will not be liable for payment of any damages / claims / delays / detentions / demurrages etc. to vessels, whose berthing is delayed due to berthing of junior vessels which have been given priority in berthing as per their contractual agreements.

21. Priority berthing guidelines for liquid tankers

For Tankers: Priority berthing for tankers will only be accepted if they will be occupying the berth for-less than 26 hours. The time will be counted from first line ashore to all cast off.

- **21.1** Priority berthing will be allowed for up to 2 vessels at a time on FCFS basis.
- **21.2** Priority berthing is only applicable for dedicated Liquid cargo berths.
- **21.3** Any vessel requesting priority berthing is required to give at least 24 hrs notice basis ETA at Dighi Port limit. No request for priority berthing will be accepted, if the notice is less than 24 Hours.
- **21.4** Once a vessel has requested priority, the same can be cancelled or withdrawn up to 12hrs before her arrival ETA at the Port Limit without attracting priority cancellation charges.
- **21.5** Priority cancellation charge of will be levied as per tariff in case the vessel cancels her priority berthing less than 12 hrs from her last declared ETA.
- **21.6** If a vessel berths without superseding any other vessel, priority berth charges will not be applicable to the vessel.
- **21.7** Port will not keep berth vacant for any priority vessel and seniority sequence will be maintained as usual till arrival of priority opted vessel. The vessels priority starts from her arrival time and accordingly she will be given first preference amongst the waiting vessels. The vessel's ETA must be updated every 06 hrs in the last 24 hours.
- **21.8** The next vessel seeking priority will be accorded the same 26hrs after un-berthing of 2nd priority vessel.
- **21.9** The vessel which avails priority berthing will be required to pay 100% additional berth hire as applicable as per prevailing Port Tariff. In case of vessels having import as well as export cargo, the following will apply:
 - 21.9.1 Vessel's berth stay cannot exceed 26 hours as given above.
 - 21.9.2 If there is another vessel waiting for berth, the priority vessel will shift out on completion of the cargo for which priority berthing had been sought.

- 21.9.3 The vessel, berthed on priority, after shifting out will re-berth as per her new seniority as per BPTS.
- 21.9.4 In case a vessel which is berthed on `priority terms' is unable to complete the cargo operations and sail out within 26 hours, then Layup berth hire charges as per port tariff will be applicable in addition to 100% priority berth hire charges mentioned in BPTS. In case the vessel is delayed beyond 26 hours for the fault of the vessel, the Port reserves the right to shift the vessel to anchorage at her cost, subject to another vessel waiting for occupying the berth. The vessel / agent / shipper / consignees agree to give an undertaking to pay the charges for priority berthing in advance. Priority will be accorded as per Port's discretion. In case of any dispute, the Port's decision will be final.

22. Berthing / Un-berthing guidelines for vessels

- Minimum UKC not below 10% of the deepest draft in the channel, not below 10% of the deepest draft in the turning circle and inner basin and not below 1.0 meter at the berth.
- The limiting wave height is Hs = 1.5 m in combination with a wind speed of 12 m/s (10 minutes average wind speed).
- As a normal procedure for berthing, 1 tug is provided for berthing and unberthing. It is ports discretion to use higher no of tugs based on the vessel and weather condition

IV. Marine Tariff

F. LAY UP BERTH HIRE :	
Lay up Charges (First line ashore to All cast off) is Same rate as berth hire and applicable in addition to the berth hire. Minimum berth hire charges is	1.1 If vessel unable to commence cargo within 3 hrs of all fast and unable to book OWPM for sailing within 3 hrs of completion time then, lay-up berth hire becomes applicable from 3 hrs after all fast till cargo commencement and 3 hrs after cargo completion till outward request time respectively.
applicable. Also applicable for those vessels which call Dighi Port purely for lay-up berth)	1.2 Lay Up berth hire can be granted on sole discretion of port subject to availability of berth.
	1.3 If vessel exceeds granted lay-up time then the vessels will be shifted out at her own cost. Lay-up berth hire charged in addition to normal berth hire for the duration that the vessel requires the use of the berth but is not carrying out cargo operations.
	1.4 The vessel is allowed to stay on the berth on payment of Layup berth hire provided the vessel agent has made an advance request for the same and there is no vessel waiting for that berth.
	1.5 In case cargo stoppage more than 2 hrs during entire operation. Lay-up berth hire applicable after first 2 hrs stoppages till resume the cargo operation.
G. NON BERTH VACATING CHARG	GES :
Non berth Vacating charges: 2 times the berth hire as mentioned in the port tariff (minimum berth hire charges will be applicable). This charge is in addition to berth hire charges.	Whenever for any reason Port requires vacate the berth, the port will give 2 hrs notices to vacate the berth, If vessel fails to vacate the berth then Non berth vacating charges will be applicable.
H. PRIORITY BERTHING CHARGES	FOR LIQUID VESSELS
\$ 0.0091 per GT per Hour (First line ashore to All cast off)	1. Liquid tankers which avails priority berthing will be required to pay priority berthing charges and it will be in addition to the berth hire. All terms and condition will be applicable as per the BPTS page 22.
	2. Priority cancellation charges for liquid tankers \$ 645 Will be levied in case the vessel cancels her priority berthing less than 12 hrs from her last declared ETA.
	3. In case a liquid tanker which is berthed on `priority terms' is unable to complete the cargo operations and sail out within 27 hours, then Layup berth hire (\$ 0.0091 per GT per hour) as per port tariff will be applicable in addition to 100% priority berth hire charges mentioned in BPTS.

BPTS I Page 26

I. ANCHORAGE CHARGES				
\$ 0.005 Per GT Per Hr. or Part thereof.	 Anchorage charges will be levied for the entire period of anchorage, i.e. from the time the vessel enters the anchorage area: A day shall be reckoned as 24 hours from the time a vessel enters the anchorage. The time at which the vessel sails out of the anchorage area will be counted for calculating the period for levying of anchorage fee. vessel shall be liable to pay anchorage fees and berth hire for the same day if there is a shifting from anchorage to berth or vice versa. Only Berth Hire shall be payable for that day. 			
J. BERTHING PROCESS CHARGES	5:			
Dilatage Concellation Charges	\$ 500	If cancelled between 2.00 hrs till pilot Boarding.		
Pilotage Cancellation Charges	\$ 1250	If cancelled after pilot boarding.		
	NIL	Up to 30 minutes delay from the nominated pilot boarding time.		
Pilotage Detention Charges	\$ 1500	Per 30 minutes slab and applicable when delay is more than 30 minutes.		
K. UN-BERTHING PROCESS CHARG	ies :			
Vessel should be ready in all respect for sailing at the nominated Pilot boarding time. In exceptional cases, a maximum delay up to 15 minutes after Pilot boarding time will be allowed if the unberthing of the vessel is delayed beyond 15 minutes after POB timing due to non-readiness of the vessel, pilot detention charges will become applicable for the entire duration of delay including first 15 minutes.				
Pilotage Cancellation Charges	\$ 500 \$ 1250	If cancelled between 1 hrs till Pilot boarding. If cancelled after pilot boarding.		

Pilotage Detention Charges	\$ 475	boarding time.	ay from the nominated pilot

	15.	Fire crew for on board for fire fighting	Per four hour shift.	\$ 300	

Note: In case of emergency on board the vessel, the port will mobilize emergency response service and the charges will be debited to vessel agent account. Port will not take confirmation from agent in case of emergency.

AA. Facility for Discharge of Ship generated waste

Vessels have to discharge ship generated waste (Like sludge, Slop, Garbage, scrap etc.), which are generated during voyage period, at any port of call. Disposal of ship generated waste into sea water is strictly prohibited as per MARPOL 73/78 convention as amended. India is signatory to this convention of IMO (International Maritime Organisation). For collection and disposal of ship generated waste, as per MARPOL 73/78, it has been made compulsory for all the countries, who are signatory to IMO, to provide shore reception facility. Accordingly, Adani Ports and SEZ Limited, Dighi provides this facility to vessels calling at this port through the private firms registered with Central Pollution Control Board and having valid approval to operate from State Pollution Control Board. These private registered firms make the necessary arrangement for discharge / reception of the ship generated waste from the vessel.

In case of any cargo restow is required during cargo operations, the stevedoring charges will be applicable as per port tariff, for applicable commodity on restow qty only If same carried out onboard without using transport /storage facility on wharf. In case of any cargo restow is required during cargo operation with storage at wharf (without any transportation)& reloading with crane, single side stevedoring as per port tariff will be applicable for respective commodity on restow qty. - Single Stevedoring Charges. In case of any cargo restow is required during cargo operation with storage at wharf & transportation for reloading, stevedoring as per port tariff (Applicable for unloading & reloading) will be applicable for respective commodity & in an addition to same, transportation charges/royalty will be applicable on case to case basis.-Twice Stevedoring Charges + Terminal Handling Charges. In case of movement like roll on roll off or direct offloading to another vessel, stevedoring charges will be applicable as per port tariff. In case of wrong declaration of FRT (less than actual FRT by 2% or more) the applicable charges: Twice stevedoring charges. **IMPORTANT NOTE :** 1. No. of axles deployed for the heavy lift after taking confirmation of the submitted drawing for even load distribution of the heavy lifts since the same shall have to be moved thru the jetty. 2. No of axles shall be arranged in such a manner that total load (including self- weight of trailer) should not exceed 13.5 MT in cross section, with complying all above safety and operational requirements. No. of axles deployed for moving the cargo thru the jetty should be as per satisfaction of the port. - Route survey of the trailer with cargo (considering its maximum height, width and turning) to be carried out by operation team. - Axle line spacing should not be less than 1.55 Mtr. - Trailer configuration (i.e. nos of wheels and axles in cross section) shall be as per attached figure. Two axles and 8 wheels are required per axle lines. Base width of trailer in a section shall be approx.3mtrs. Typical trailer arrangement is shown in below figure.

4. Each axle shall have practically equal load and loading shall be uniformly distributed to all the axles.

5. Maximum speed of trailer on approach = 5 kmph

BPTS I Page 42

	6. Weightofthecargoshallbeverifiedbeforemarchingoftrailerfromapproach.					
	7. Trailer shall stand/march beyond 4.0m from the berthing/extreme face the jetty,					
	outreach of vessel cranes to be checked accordingly.

	More than		every 2000MT)				
2.			bearing strips maximum 06 no				
	2mtrs] and for chockin	ng/shoring and ship si	ides per pipe stake inside vess	el holds.			
3.	2 lines Lashing/securing with 16mm conventional wire ropes and compatible wire clips and turns buckle per pipe						
	stake inside vessel holdrefer Annexure 1.						
4.	Rubber strip protection on tank top and ship's sides.						
5.	Lifting gears/spreader	rs/slings/ conventiona	al pipe lifting hooks.				
6.	Above schedule of rates are applicable only for loading/stowage /securing of steel pipes inside vessel holds. In case of any UPPERDECK/TWINDECK/ON DECK/HATCH TOP stowage/ securing, the same would be additional & ascertained on case to case basis as the situation demands. The rates/costs will be calculated on the basis of actual requirement indicated by Master/Chief officer/Port Captain where there are special requirements like fabrication/fitting of Stanchions, pad eyes, stoppers, heavy lashing/ securing materials, wooden wedges etc.						
7.	Any additional Dunnage line with rubber padding required to create flat top line for balance between two different pipes in each stake will be on additional basis as separate charges for additional Dunnage line & rubber respectively.						
8.	Any Additional Dunnage used more than limit of respective slab due to choking or any other reason will be on chargeable basis on actuals.						
9.	GST as applicable will	be extra and subject	to change from time to time a	s per Govt. circular / guidelines.			
	 Schedule charges for Additional Services for extra consumption : Pine Wood : \$ 340 / CBM Dunnage Wood : \$ 195 / CBM Additional Dunnage Line : \$ 110 / Line (Normal)-refer Annexure 1 						

BPTS I Page 44

- Additional Rubber Line : \$ 100 / Line
 - Additional Lashing wire : \$3.6 / Meter
 - Fumigation charges: \$ 360 per shipment per customer a notice of 72 hours (3 working days) required.
 - Phytosanitary Certificate : \$ 215 per shipment per customer

H. STEEL CARGO HANDLING DIMENSIONS / WEIGHT

			SIZE			
Sr.No	COMMODITY	LENGTH	WIDTH	HEIGHT	THICKNESS	MAX WEIGHT IN MT
1.	STEEL COILS		1.8 MTR	1.8 MTR		32 MT
2.	STEEL PLATES / BUNDLE	12.5 MTR	4 MTR		25 MM	24 MT
3.	STEEL SLABS	7 MTRS	2 MTR			32 MT
4.	STEEL BARS / STEEL ANGLES / STEEL RODS	12 MTR		IN BUNDLES		10 MT
5.	PROJECT CARGO	15 MTR	3.5 MTR	3.5 MTR		30 MT
6.	STEEL PIPES					
7.	2 OD- 12 OD (INCHES)	13.5 MTRS	IN BUNDLE (MORE THAN 2 PIPES)		2 MT – 10 MT	
8.	ABOVE 12 OD – 70 OD	13.5 MTRS	SINGLE PIPES		10 MT	

Note:

- DPL will allow direct delivery/carting of project cargo exceeding above dimension. In case same is desired to be handled by DIGHI, same is to be discussed with port marketing team on case to case basis. Other than above mentioned standard dimension for steel cargo, rates can be obtained from marketing desk.
- Mis-declaration of vessels gear/capacity as prescribed in port information and tariff booklet: Escalated berth hire charge will be applicable till the time, vessels request for the shore crane.
- Note:NonContainerVesselswhichareberthedat DPLContainerterminalwillhavetopay shifting chargesifrequiredtovacatetheberthforscheduledcontainervesselunlessrequired to do so for convenience of the port.

A. calculation of crane idling charges due crane failure for the vessels berthed at Adani Port

Idling of vessel on account of following:

- Miss-declaration of cargo as prescribed in clause 6.15: If vessels crane are unable to discharge the said cargo, Layup berth hire will be applicable from the time of idling due to said package till the time, vessels request for the shore crane.
- Miss-declaration of vessel's gear/capacity: If in case of wrong declaration of vessel' gear/capacity Lay-up berth hire will be applicable till the time, vessels request for the shore crane.
- I. Total idling of vessel's cranes exceeding 10% of total available crane hours / day will attract crane idling charges. However, vessel / vessel agent can request for shore crane. In case of unavailability of shore crane, the crane idling charges would not be applicable.

II. This intermediate crane idling charges will be USD 175/hr/hook as calculated below:

Note: In case of failure of ship crane, if the vessel agent request for shore cranes within 6 hours from crane failure time, then crane idling charges will not be charged to the vessel.

- Example A:
- * Vessel: x with cargo gear 4 x 25 MT SWL crane.

> Supposing the crane stoppages in 24 hrs are as follows:

- Crane 1 total stoppage 6 hrs and 30 minutes, (allow 2.4 hrs) = 4.1 Hrs.
- Crane 2 total stoppage 1 hr, (allow 2.4 Hrs) = Nil.
- Crane 3 total stoppage 4 hrs and (allow 2.4 hrs) = 1.6 hrs.
- Crane 4 total stoppage Nil. (allow 2.4 hrs) = Nil.
- Then, Total crane idling charges hrs = 4.1 + 0 + 1.6 + 0 = 5.7 hrs = 6 hrs.
- Total amount applicable for crane idling charges = 6 hrs x USD 180 = USD 1030 + applicable GST
 Housekeeping of storage area: All basic housekeeping requirements is to be done by occupier of all the Storage area given on rent for long term basis.

B. Breakdown of ship crane wire/ other part or mechanism during cargo operation

1. Charges of USD 10,000/- per incident in case a vessel's Crane / derrick's wire, block, hydraulic system or any other system fails during cargo operations resulting in free fall of the cargo or the crane / derrick either on the vessel or on the berth.

2. Charges for repair/ procurement of damaged port property as assessed by the Port.

3. Charges for damaged cargo and its recovery from the water and its disposal if the cargo has fallen in to the water.

4. Charges for the complete treatment of the injured / affected personnel and compensation for the injury or disability as decided by the Port.

Note : Port tariff is subject to Annual revision basis prevailing market conditions and Port management discretion.

VIII. STORAGE CHAGES

Category	Free Days	Calculated from
Import Cargo	5	Calculated from the date of completion of cargo landing at Berth
Export cargo 5		Calculated from the date on which the cargo is brought into th transit area to the date when evacuation of cargo commences from the transit area for loading onto the vessel
PERIOD AFTER FREE DA	YS	Rate of Demurrage Charge payable per day or part thereof (Indian Rupees)
irst Week	20% o	of the Wharfage charges applicable on the cargo
Second Week	30% o	f the Wharfage charges applicable on the cargo
Fourth Week	50% of the Wharfage charges applicable on the cargo 75% of the Wharfage charges applicable on the cargo	
ifth Week onwards	100%	of the Wharfage charges applicable on the cargo
 On expiry of the Free Days, demurrage the entire delivery is completed and on Public holidays and non – working days The above-mentioned rates are not ap cargo. If at any time after the expiry of free port to the presence of through the port, the port at its discre representatives to remove the cargo fip port premises. If the cargo is not removed within the sport has the right to remove the cargo No Free Days shall be allowed in respeand meant to be shipped on a particut said vessel under the advice of the shipped on the shipped on		e not applicable for storage of perishable and hazardous of free period, the Port apprehends congestion at the port due of cargo which could affect the smooth transit of cargo as discretion, may direct the owner or any of his cargo from the Transit Area to any other location within the hin the stipulated time period given by the port, then the ne cargo at the risk and cost of the owner. in respect of cargo which are brought into the Transit Area a particular vessel but are not shipped in full or part on the
