

# GAC Dubai Dry Docking Support

**Round-the-clock services for vessels calling at Dubai  
Drydocks (DDW), Dubai Maritime City and Al Jadaf**

GAC Dubai offers a full range of dry docking support services, from crew and spares handling to arranging stores, accommodation and visas. Ship owners and management companies can also tap into the expertise of GAC Marine Logistics to manage the supply chain of their routine maintenance spares and equipment.

Our experienced staff can be based at the owner's site office to manage inventory and liaise with DDW, Owner's representatives, surveyors, suppliers and technicians, etc. We take care of the administration and logistics, allowing Masters, Chief Engineers and Superintendents to focus on the drydock jobs with full control of all spares and stores entering or leaving the vessel.

**Delivering your strategy.**

# Trust us for all your dry docking needs. GAC is the largest agency operating at DDW.

Our strong expertise in dry docking support is built on our decades of experience and excellent working relationships with the dry docks and other repair facilities in Dubai. In addition to handling all types of vessels calling for repairs such as tankers, LNG/LPG vessels, container ships, Ro-Ro and Navy vessels and oil rigs, we also assist vessels undergoing conversions from tankers to FPSOs.

Prior to vessels' departure, we can also supply bunkers through GAC Bunker Fuels, one of the few ISO 9001:2015 and ISO 14001:2015 certified bunker companies in the industry.
