

GAC Raslaffan Shipping Services

Total support for your vessels at Raslaffan port

Delivering comprehensive shipping services to keep your business moving.

Delivering your strategy.

GAC has been present in Qatar since 1979, and is one of the country’s leading service providers in the shipping and logistics industry.

Established in May 2017, GAC Raslaffan is one of the few companies in Qatar offering full agency services at the port. We combine our local knowledge with the global resources of the GAC Group to deliver world-class shipping services.

We go beyond standard ship agency with our extensive range of services, including husbandry, hull cleaning, ship supply, bunker fuels, and more, all customisable to meet each customer’s specific needs.

Our close working relationships with local authorities and port officials enable us to provide smooth and fast turnarounds for vessels and shipments.

Ethics and compliance

Our operations are in full adherence to the Group’s strict compliance and ethics procedures – underpinned by the GAC Code of Ethics and Quality, Health, Safety, Security & Environment (HSSE) policies.

Ship Agency

We offer full port agency services to a diverse range of vessels, including tankers, LNG, bulk and offshore support vessels. Our services

include customs and immigration clearances of vessels and crew, collection of port fees, crew changes and cargo documentation. We also coordinate berthing, embarkation/ disembarkation, cargo operations, crane and labour arrangements and warehousing. Our 24/7 radio room operations support all your agency and husbandry needs.

We also offer a full range of shipping and support services at N-KOM Shipyard.

Husbandry Services

Our speedy and well-coordinated husbandry services ensure fast vessel turnarounds, thereby enhancing your operational efficiency. Services include crew handling, cash to Master, spares clearance and delivery, fuel and provision supplies, inward/outward clearances, communications assistance and liaison with local authorities. You benefit from centralised co-ordination, standardised rates and a single invoice, simplifying administration.

Ship Supply

Our Ship Supply services keep your vessels and cargo moving, without requiring the vessels to divert from

their course. We offer 24/7 door-to-deck delivery, garbage disposal and round-the-clock offshore supply services in the event of emergencies.

Using our own supply and crew launches, we deliver spares and provisions and embark/disembark crew, surveyors or inspectors safely and efficiently.

A dedicated GAC crew desk takes care of crew members’ welfare. We provide “Meet and Greet” as well as

FLEXIBLE INTEGRATED SERVICES TO MEET DIVERSE NEEDS

land transportation services between ports and airport.

Bunker Fuels

We work with the ISO 9001-certified GAC Bunker Fuels to provide bunker fuel and lubricants at anchorage, through carefully vetted suppliers who meet internationally approved standards and at competitive prices.

Hull Cleaning Solution

GAC EnvironHull’s unique brushless cleaning technology, using the award-

winning Remotely Operated Vehicle (ROV) HullWiper, delivers a foul-free hull without compromising the marine environment and with minimal damage to the anti-fouling surface. The result is significantly improved long-term operating efficiency and vessel speed, and up to 40% savings on fuel consumption without the need for expensive down-time for cleaning operations.
